Subject:- Building Activities.
Ref'nce:- Your T/24/33 of 6.10.47.

p. 40

The information contained in your above letter is incomplete. The object of the return of built up rooms is to keep the Chief Secretary well informed of the number of rooms completed each month in urban and rural areas. This is quite different from the number of building permits issued as, broadly speaking, the issue of a building permit for the construction of one or more rooms does not mean that the rooms were actually built up and unless inspected on the spot by a responsible officer it is unsafe that they are completed.

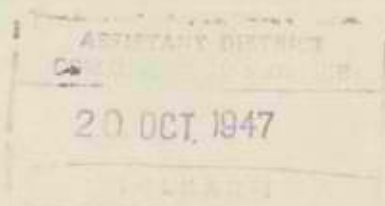

2. I fully appreciate the difficulties you experience in making available means of transport to town planning staff to perform this type of work but I suggest that this can be overcome by calling upon the Mukhtars of villages, to which the building permits were issued, to report to you the number of rooms completed in their respective villages each month.

3. You should stress upon Mukhtars that their figures should be accurate.

4. I shall be glad if you will submit a revised return for the month of September, 1947.

Subject:- Quarterly returns of permanent buildings
authorised by Municipal Corporations and
Local Councils.

As it is desirable to receive information on authorised building at quarterly intervals from all Municipal Corporations and Local Councils in the country authorised to issue building permits, other than the large towns already supplying, such information, I approached all undermentioned Municipal Corporations and Local Councils in your district requesting them to supply me on a prescribed form, not later than the 15th September figures on authorized building relating to the first two quarters of the year 1947. In future the returns should reach this department not later than the 20th of the month following the end of the quarter to which the returns relate.

I enclose a copy of my covering letter and copies of the proforma and shall be grateful if you will kindly request your District Officers to urge the Municipal Corporations and Local Councils concerned to expedite the compilation and despatch of these returns so that they may reach me not later than the date fixed in my letter.

Forms were sent to the following Municipal Corporations and Local Councils in your district.

Municipal Corporations: Nablus, Jenin, Tulkarm

Local Councils: Anabta, Emek Hefer, Nathanya, Qalqilya.

DEPARTMENT OF STATISTICS.
JERUSALEM.

August, 1947.

Sir,

In view of the growing importance attached to information relating to building and activity in the country, it has been decided to collect data on permanent building authorised from all municipal corporations and local councils authorised to issue building permits, other than those already supplying this department with such information. You will appreciate the value of such material to all local authorities in Palestine.

The collection will be quarterly in the first instance and I enclose special forms prepared for this purpose with the request that they may be completed as follows:

- One in respect of the first quarter (1.1.47 - 31.3.47)
- One in respect of the second quarter (1.4.47 - 30.6.47)

Will you please also arrange that data relating to each of the three months in each quarter should be inserted in addition to the total for the quarter.

I shall be grateful if you will arrange that the return for the first two quarters of 1947, reach me not later than the 15th of September and that in the future the returns will be despatched not later than the 20th of the month following the end of the quarter i.e. the return for the third quarter should reach me not later than the 20th October, 1947.

Please retain one copy of each return for future reference.

I am, Sir,
your obedient servant.

I am directed to enquire whether it is possible for you to submit monthly returns showing the numbers of rooms built per month as distinct from licences issued on the square metre basis. The object of this is to enable Government to have at its disposal more accurate information than that given in the table on page 599 of the November issue of the general monthly Bulletin of current statistics.

2. If you can give me this information I will be grateful if it may be set out as follows:

New rooms completed in 1945

New rooms completed in 1946

Thereafter new rooms completed in Jan. 1947 etc.

The return should show the total rooms completed in each district, which total should, if possible, be subdivided into each main town and rural area.
